

# **Lecture 3**

**Understanding the Need, Basic  
Guidelines, Content & Process  
for Value Education**

# Priority: Right Understanding, Relationship & Physical Facility

1 RIGHT UNDERSTANDING

(समझा)  
in the self

2

RELATIONSHIP  
(संबंध)  
with human  
beings

Feelings  
- Trust  
- Respect  
- ...

3

PHYSICAL FACILITY  
(सुविधा)  
with rest of nature

For animals:  
necessary &  
adequate

For human beings:  
necessary but  
not adequate

MUTUAL HAPPINESS

(उभय सुख)

MUTUAL PROSPERITY

(उभय समृद्धि)

# Priority: Physical Facility

# Role of Education – To Enable Transformation

The role of education is

To enable the transformation to human consciousness

To facilitate the development of the competence to live with definite human conduct

Transformation – Progress  
संक्रमण – विकास

One's education starts in the family, then goes on in school, college... It is influenced by media... role models in society...

# Living with Human Consciousness → Humane Family, Humane Society

# Living with Animal Consciousness → Inhuman Family, Inhuman Society

## Inhuman "Society" (Crowd or Battlefield)

|                                       |                           |                                |                              |
|---------------------------------------|---------------------------|--------------------------------|------------------------------|
| Assumptions (eg. Money is everything) | Accumulation By Any Means | Domination, Exploitation, Fear | Mastery & Exploitation       |

| Obsession for Consumption for Profit  |                           | Terrorism War                  | Resource Depletion Pollution |

Individual based (having different or opposing goals)

Transformation - Progress  
संक्रमण - विकास

## Role of Education:

1. Personal transformation
2. Societal transformation

# Value

What is valuable = value

The context is always the larger order

Value has to do with the participation in the larger order

*E.g. A piece of chalk is a unit*

*A classroom is the larger order*

*The value of chalk is that it can be used to write on the blackboard*

The participation in the larger order is also its role in the larger order

*E.g. The role of chalk is to help write on the blackboard*

# Human Values, Role of Human Being in the Larger Order

## **Individual**

I have a role within myself  
(eg. ensuring happiness in the self and health in the body)

## **Family**

I have a role in my family  
(eg. ensuring feeling of relationship and prosperity)

## **Society**

I have a role in the society  
(eg. to participate in social systems for ensuring justice, peace and harmony)

## **Nature/Existence**

I have a role in nature/existence  
(eg. mutual fulfilment with rest of nature)

# Deciding Our Values

Do you want to be able to decide on your own right?

or

Do you want somebody else to decide for you?

(this somebody may be a group of people, it may be the society or the education system, etc.)

If you are not able to decide on your own right then:

1. Someone else is programming you  
(deciding what is valuable and what is not valuable for you)
2. Unconsciously you keep accepting those things as values
3. You get busy with how to implement them, how to realize them and materialize them

# Components of Human Education

|                      |                         |                          |
|----------------------|-------------------------|--------------------------|
| <b>Understanding</b> | What to do, Values      | <b>Value Education</b>   |
| <b>Learning</b>      | How to do, Skills       | <b>Skill Development</b> |
| <b>Doing</b>         | Skills guided by Values |                          |

Are both, values and skills, required?

Both are required; Values and skills are complementary to each other

If both are required, then what is the priority?

Values (what to do) first, then skills (how to do), but both are required

What is the state in present-day education?

Education has become skill-biased. There is a need to make appropriate changes

# Guidelines for Value Education

- **Universal**

The content needs to be universal – applicable to all human beings and be true at all times, all places

It should not depend on sect, creed, nationality, race, gender, etc.

- **Rational**

It must be amenable to logical reasoning

It should not be based on blind beliefs

- **Verifiable**

The student should be able to verify the values on one's own right

Should not be asked to believe just because it is stated in the course

- **Leading to Harmony**

Values have to enable us to live in peace and harmony within our own self as well as with others (human being and rest of nature)

# Content of Value Education

## Holistic, All Encompassing

### Covers all dimensions of being, as an Individual:

1. Thought
2. Behaviour
3. Work
4. Understanding/Realization

Eg. In Thought – we want to have clarity (a state of resolution, solution) **NOT** confusion (a state of problem)

### Covers all levels of living:

1. Individual (human being)
2. Family
3. Society
4. Nature/Existence

Eg. As a Family, Society – we want Fearlessness / Trust  
**NOT** fear (due to mistrust / opposition)

# Process of Value Education (Self Exploration)

Whatever is said is a **Proposal** (**Do not assume it to be true or false**)  
**Verify** it on Your Own Right – on the basis of our **Natural Acceptance**

It is a process of **Dialogue**

A dialogue between me and you, to start with

It soon becomes a dialogue **within your own self**

between what you are and what you really want to be  
(your natural acceptance)

The purpose of this workshop is to initiate this internal dialogue

प्रस्ताव है (मानें नहीं)

जाँचें – स्वयं के अधिकार पर।

अपनी सहज स्वीकृति के आधार पर।

यह संवाद की प्रक्रिया है।

यह संवाद आपके और मेरे बीच शुरू होता है, फिर आप में चलने लगता है।
